sound mind, sound body™

Inline
ASICS CANADA
v3

A person with short dark hair, wearing a blue jacket over a pink shirt, is shown in profile, looking out towards a sunset. The background is a warm, golden glow from the setting sun, with some blurred trees and a body of water in the distance. The person's hand is visible, resting on their hip.

Sound Mind, Sound Body™

At ASICS, we believe in the positive impact of sport on the mind. Take our name, an acronym for Anima Sana in Corpore Sano or “a sound mind in a sound body.” Our founding philosophy is perhaps more relevant than ever and we’re recommitting to promoting the positive, uplifting power of sport.

GEL-NIMBUS® 24

FLYTEFOAM™ BLAST+

**ENGINEERED
MESH UPPER**

**LIGHTEST
GEL-NIMBUS® EVER!**

GEL-NIMBUS® 24

The GEL-NIMBUS® 24 shoe offers advanced impact protection for your distance training. Creating a softer landing in every step, this shoe is also approx. 10g lighter than the previous version.

The upper's soft engineered mesh and flexible midfoot panel make these shoes more comfortable during long runs. By moving seamlessly with your foot, they help your stride feel smoother in every step.

FF BLAST PLUS™ cushioning keeps the shoe lightweight while increasing shock absorption. Featuring a more responsive toe-off, these shoes also create a smoother feeling underfoot.

FEATURES

Engineered mesh upper wraps the foot with a soft feel while improving breathability
Rearfoot and forefoot GEL® technology improves impact absorption and creates a softer feeling at footstrike
TRUSSTIC™ technology improves stability
FF BLAST PLUS™ cushioning creates a softer landing and a more responsive toe-off
FLYTEFOAM™ cushioning provides lightweight impact absorption
OrthoLite™ X-55 sockliner improves step-in comfort
Reflective details improve visibility in low-light conditions
3D SPACE CONSTRUCTION™ feature improves compression at footstrike
The shoe's upper is made with recycled materials to reduce waste and carbon emissions
AHAR® LITE Rubber rubber is lighter, stronger, and more sustainable than standard outsole rubbers
AHARPLUS™ heel plug rubber improves durability

GEL-NIMBUS® 24 COLOUR INJECTION

The GEL-CUMULUS® 23 LITE-SHOW™ shoe helps you focus on the distance ahead as you move towards your personal best. It's a high-mileage trainer that's designed to make your stride smoother and your mood brighter.

This design features reflective details that are strategically positioned to improve visibility when running in low-light settings.

Creating a softer feel underfoot, this shoe's rearfoot GEL® technology allows you to experience cloud-like comfort.

Meanwhile, the FLYTEFOAM™ cushioning keeps the shoe lightweight and propels your stride forward with a smooth transition.

FEATURES

Rearfoot and forefoot GEL® technology improves impact absorption and creates a softer feeling at footstrike
Gender-specific 3D SPACE CONSTRUCTION™ feature addresses different compression rates

GEL-NIMBUS® 24 KNIT

The GEL-NIMBUS® 24 MK shoe offers advanced impact protection for your distance training. With its softer cushioning, this shoe is designed to create a pillowy ride in each step.

For this version, we designed the upper with knit materials, suede ASICS Stripes and neutral hues. It presents a more contemporary look that's equally functional for performance training.

FF BLAST PLUS™ cushioning keeps the shoe lightweight while increasing shock absorption. Featuring a more responsive toe-off, these shoes also create a smoother feeling underfoot.

GEL-CUMULUS® 24

FLYTEFOAM™ BLAST

MORE CUSHION

**CONSUMER RIGHT
GEOMETRY**

GEL-CUMULUS® 24

The GEL-CUMULUS® 24 shoe is a versatile everyday trainer for various runners covering different distances. From the upper to the foam underfoot, this shoe feels softer and more responsive.

To improve comfort, the upper features an improved heel fit. Meanwhile, the engineered mesh helps increase breathability to keep your feet cool throughout your run.

This smooth distance trainer is also updated with our FF BLAST™ cushioning. It keeps the shoe lightweight while creating a softer touchdown and a more energized toe-off.

FEATURES

- FF BLAST™ cushioning creates lightweight impact absorption and a responsive energy return
- Rearfoot and forefoot GEL® technology improves impact absorption and creates a softer feeling at footstrike
- Gender-specific 3D SPACE CONSTRUCTION™ feature addresses different compression rates
- Engineered mesh upper improves breathability
- Reflective accents improve visibility in low-light conditions
- FLYTEFOAM™ cushioning provides lightweight impact absorption
- The shoe's upper is made with recycled materials to reduce waste and carbon emissions
- OrthoLite™ X-30 sockliner provides soft step-in comfort
- Full-ground contact design creates a smoother and more efficient ride

GEL-CUMULUS® 23 G-TX

The GEL-CUMULUS® 23 G-TX shoe helps you focus on the distance ahead as you move towards your personal best. It's a high-mileage trainer that's designed to make your stride smoother and your mood brighter.

This shoe's combination of GORE-TEX™ technology and engineered mesh helps repel water while keeping your feet dry and comfortable.

Creating a softer feel underfoot, this shoe features an updated GEL® technology unit in the heel that allows you to experience cloud-like comfort.

Meanwhile, the FLYTEFOAM™ cushioning keeps the shoe lightweight and propels your stride forward with a smooth transition.

FEATURES

GEL® technology cushioning provides excellent shock absorption
Gender-specific 3D SPACE CONSTRUCTION™ feature addresses different compression rates
Engineered mesh upper
Reflective accents improve visibility in low-light conditions
FLYTEFOAM™ technology provides lightweight cushioning
GORE-TEX™ upper helps keep feet dry in wet conditions

GEL-CUMULUS® 23

The GEL-CUMULUS® 23 shoe's focus is to provide an even smoother and softer ride while implementing gender tailored technology in the men's and women's models. Continuing to draw inspiration from cumulus clouds, we reimagined this neutral running shoe's upper and midsole formation by applying a more holistic design approach that adapts to the runner's anatomy in motion.

Wrapping the foot with an even softer feel, the engineered mesh upper adds strategic support in targeted areas while leaving some of the fibers more open to improve breathability. The upper also works more closely with the midsole's movement, which creates a smoother stride from footstrike to toe-off. Additionally, the shoe's upper is made with recycled materials to reduce waste and carbon emissions.

To improve cushioning and flexibility, we added a 3D SPACE CONSTRUCTION™ to the top layer of the midsole. This technology is implemented through a series of strategically planted pillars within the midsole, allowing runners to experience more compression in a specific area without reducing durability or stability. These pillar formations are tuned differently in the men's and women's models to address each gender's biomechanical data. By helping runners appropriately compress the foam during the landing phase of their stride, this shoe promotes a smoother ride and improves shock absorption.

Lastly, a softer GEL® technology unit is positioned under the heel to improve cushioning while the FLYTEFOAM™ midsole material helps create a smoother and more supportive ride.

GEL-CUMULUS® 23 LITE-SHOW™

The GEL-CUMULUS® 23 LITE-SHOW™ shoe helps you focus on the distance ahead as you move towards your personal best. It's a high-mileage trainer that's designed to make your stride smoother and your mood brighter.

This design features reflective details that are strategically positioned to improve visibility when running in low-light settings.

Creating a softer feel underfoot, this shoe's rearfoot GEL® technology allows you to experience cloud-like comfort.

Meanwhile, the FLYTEFOAM™ cushioning keeps the shoe lightweight and propels your stride forward with a smooth transition.

FEATURES

Rearfoot and forefoot GEL® technology improves impact absorption and creates a softer feeling at footstrike
Gender-specific 3D SPACE CONSTRUCTION™ feature addresses different compression rates
Engineered mesh upper improves breathability
LITE-SHOW™ technology improves visibility in low-light conditions

FLYTEFOAM™ cushioning provides lightweight impact absorption

The shoe's upper is made with recycled materials to reduce waste and carbon emissions

GEL-KAYANO® 28

The GEL-KAYANO® 28 shoe creates a stable stride that moves you towards a balanced mindset.

Featuring a lower-profile external heel counter, this piece cradles your foot with improved rearfoot support.

To improve stability and responsiveness, we added FF BLAST™ cushioning to the midsole. It provides a smooth and supportive feel in each step.

The trainer's new GEL® technology shape delivers a smooth stride, allowing you to experience a softer landing without losing speed.

FEATURES

Engineered mesh upper improves breathability

Redesigned external heel counter helps keep the foot stable and provide a more comfortable stride

DYNAMIC DUOMAX™ technology helps reduce pronation

3D SPACE CONSTRUCTION™ feature improves compression at footstrike

Rearfoot and forefoot GEL® technology cushioning provides excellent shock absorption

FF BLAST™ technology provides lightweight cushioning and a responsive rebound

OrthoLite™ X-55 sockliner improves comfort

AHARPLUS™ heel plug improves the outsole durability

TRUSSTIC™ technology improves stability

GT-2000® 10 LITE-SHOW™

The GT-2000® 10 LITE-SHOW™ shoe keeps your body and mind focused on the road ahead. It's a versatile running style that's functional for various distances.

This design features reflective details that are strategically positioned to improve visibility when running in low-light settings.

A layer of FLYTEFOAM™ Propel cushioning underfoot adds a more responsive rebound to your step.

The midsole's 3D SPACE CONSTRUCTION™ feature improves compression. This function allows you to experience a smoother and more stable ride.

MEN'S

STACK HEIGHT: 22mm-14mm // DROP: 8mm // WEIGHT: 10.1oz/286g*

GT-2000® 10 LITE-SHOW™

GT-1000® 11 GTX

Our key focus for the GT-1000® 11 GTX shoe was to make this style waterproof and breathable. Thanks to its GORE-TEX™ upper, this shoe keeps the elements out when you're running in wet conditions.

FLYTEFOAM™ cushioning in the midsole is tuned with a lower density than the previous version. Teamed with GEL® technology, this combination creates softer landings and smoother transitions.

LITETRUSST™ technology is placed on the midsole's inside angle to reduce pronation. It helps produce a more supportive stride while keeping overpronation at bay.

FEATURES

GORE-TEX™ membrane helps prevent rain from entering the shoe's interior

External heel counter improves the fit and helps increase stability

LITETRUSST™ technology improves medial support and midfoot integrity

FLYTEFOAM™ cushioning provides lightweight impact absorption

Rearfoot GEL® technology improves impact absorption and creates a softer feeling at footstrike

OrthoLite™ X-30 sockliner provides soft step-in comfort

FOOTWEAR

MAGIC SPEED™

The MAGIC SPEED™ shoe is made for racing or regular training runs. It offers the versatility you need to move your body and your mind towards a new personal best.

Designed to propel your foot forward, GUIDESOLE™ technology is combined with a carbon forefoot plate. This creates a smooth rolling sensation as you move through your stride.

Traditionally, when you add more foam to a shoe, you add more weight. By stacking the midsole with FF BLAST™ cushioning, this material adds a responsive feel to your step while keeping the shoe lightweight.

FEATURES

Engineered mesh upper improves breathability
GUIDESOLE™ technology helps conserve energy
FF BLAST™ technology provides lightweight cushioning and a responsive rebound
AHAR® rubber outsole improves durability
A lightweight carbon plate runs from the midfoot forward to add structure and improve toe-off propulsion

MEN'S

NOOSA TRI™ 14

SOFTER

IMPROVED FIT

FRESH COLOUR

NOOSA TRI™ 14

The NOOSA TRI™ 14 shoe remixes archived inspiration with a sock-like fit. It's formed with a lightweight construction and an efficient ride underfoot.

Bold colours and patterns on the engineered mesh upper are inspired by the early GEL-NOOSA™ TRI styles from the 2000s. Convenient features, like the heel pull-tabs and toggled laces, make the shoes easier to put on. This makes it more practical after exiting a triathlon's swim stage or getting out the door quicker.

With GUIDESOLE™ technology underfoot, these shoes help reduce ankle flexion. Its curved design allows you to conserve more energy while experiencing an easy forward roll.

FEATURES

FLYTEFOAM™ cushioning provides lightweight impact absorption
GUIDESOLE™ technology helps conserve energy by reducing ankle flexion

Engineered mesh upper improves breathability

AHARPLUS™ outsole improves durability

Sockliner is produced with a solution dyeing process that reduces water usage and carbon emissions

Full-ground contact design creates a smoother and more efficient ride

Toggled laces make it easier to personalize the shoe's fit

Heel pull tabs make the shoes easier to take on and off

GEL-DS TRAINER™ 26

The GEL-DS TRAINER™ 26 running shoe is recommended for runners who want to go fast. It keeps you supported and focused on your training as you move towards a positive mindset.

Functional for overpronators, the shoe's DUOMAX® technology improves stability, so you can experience a more balanced stride.

Meanwhile, GEL® technology and FLYTEFOAM™ cushioning create a softer landing with a more supportive feel.

FEATURES

FLYTEFOAM™ technology provides lightweight and durable cushioning

Rearfoot GEL® technology cushioning provides excellent shock absorption

Engineered knit upper

PROPULSION TRUSSTIC™ technology propels the foot forward

DUOMAX® technology helps reduce pronation

AHARPLUS™ heel plug improves durability

HYPER SPEED™

The HYPER SPEED™ shoe helps you get to the finish line faster while using less energy. This shoe's fast design helps you focus on your training as you move towards a new personal best.

Thanks to the shoe's higher stack height, it creates a more energized stride. This responsive rebound helps you conserve more energy, while propelling you towards a faster time.

FEATURES

Breathable mesh upper
Higher stack height in the midsole
Sustainable sockliner dye

HYPERSPRINT™ 7

The HYPERSPRINT™ 7 track & field shoe, carefully engineered for both male and female short-distance sprinters. A resin plate improves propulsion and grip, so you've got everything you need for high velocity sprints without the fear of slipping. No-slip films have been carefully placed for an extra level of reinforcement and an appropriate fit in the upper, so this sturdy shoe will see you through many events and training sessions to come. There's also an E.V.A sockliner for a flexible fit and extra support where you need it.

FEATURES

- E.V.A sockliner
- Pin spikes
- Resin plate for propulsion and grip
- No-sew upper generates a secure fit

HYPER™ MD 7

The HYPER™ MD 7 track & field shoe has been crafted to suit the needs of middle-distance runners. The HYPER™ MD 7 shoe works hard to keep your feet as fresh as possible, with its lightweight feel and open mesh structure to help the air flow. And with no-sew films in place as added reinforcement and to provide an appropriate fit in the upper, the shoe does not compromise on sturdy design and practicality. The EVA midsole gives you great support underfoot, while the EVA sockliner is there for extra support and a flexible fit.

FEATURES

- EVA midsole
- EVA sockliner
- Pin spikes
- No-sew upper

FOOTWEAR

GEL-KINSEI® BLAST LE

NEW MATERIALIZATION

OUTSOLE MARBLE

**FLYTEFOAM™
BLAST +**

GEL-KINSEI® BLAST LE

The GEL-KINSEI® Blast shoes are designed for distance runners seeking a smooth stride. Our focus for this trim level approach was to make this design look as good in the streets as it does on race day. Tonal hues on the engineered knit upper are met with advanced breathability for running and everyday scenarios.

An arrangement of GEL® technology and FF BLAST™ cushioning create a soft yet responsive step. After easing into the landing phase, the shoe propels you forward with a smooth transition.

The midsole's shape is inspired by a samurai's curvaceous katana sword. With a Pebax plate in the center, this feature redirects your movement forward and gives your run a faster feel.

FEATURES

Engineered knit upper provides excellent comfort and support

Pebax propulsion plate helps redirect the runner's energy forward and create a faster feel

FF BLAST™ cushioning provides lightweight impact absorption and a responsive rebound

FF BLAST PLUS™ cushioning generates lightweight impact absorption and good durability

Rearfoot and forefoot GEL® technology improves impact absorption and creates a softer feeling at footstrike

Strategic outsole engineering improves grip and durability

NOVABLAST™ 2 LE

The NOVABLAST™ 2 shoe is a great way to meet your training goals while moving towards a clear mindset. For the second version of this series, we wanted to create a smoother and more responsive feel underfoot.

The heel stabilizer is designed to improve support while producing a smoother stride.

By fine-tuning the FF BLAST™ cushioning, the shoe offers a softer landing and a more energetic rebound.

The outsole's wider basenets create a more balanced landing while propelling your foot forward.

FEATURES

Engineered jacquard mesh upper provides excellent comfort and support while keeping feet cool

The heel stabilizer helps support the foot and create a more balanced stride

Gusseted tongue wing fit system improves the midfoot fit and reduces tongue sliding

FF BLAST™ technology provides lightweight cushioning and a responsive rebound

Trampoline inspired outsole design provides a more responsive bounce back

AHARPLUS™ outsole improves durability

DYNABLAST™ 2

The DYNABLAST™ 2 shoe is designed for runners seeking a comfortable ride. It's a responsive running shoe that's made to take your post-run feeling to new heights.

Fewer overlays on the upper mean less rubbing on your foot. It's formed with a soft, circular-knit that creates a more locked-in feel with a comfy touch.

The FF BLAST™ cushioning's energized softness provides a trampoline effect as you run. By lowering the drop height to 8mm, this shoe offers a more responsive feel underfoot.

FEATURES

Circular knit upper improves airflow and provides a supportive foothold

FF BLAST™ technology provides lightweight cushioning and a responsive rebound

Underfoot cutouts provide excellent bounce
OrthoLite™ X-30 sockliner provides soft step-in comfort

UPDATED TOOLING

**RESPONSIVE &
ENERGETIC**

**BREATHABLE
MESH UPPER**

VERSABLAST™ 2

The VERSABLAST™ 2 shoe is a versatile training partner for varied workouts and running regimens.

Inspired by our NOVABLAST™ series, we wanted to make this shoe softer and lighter. It's designed to provide good comfort for a range of activities.

By focusing on the shoe's energy return, we created a more responsive rebound for a fast feel underfoot.

FEATURES

Breathable mesh upper

Heel pull tabs make this shoe easier to take on and off

Midsole foam provides soft cushioning with a responsive rebound

Half-bootie heel collar design

CORE RUNNING

SS22 | ASICS CANADA

FOOTWEAR

GEL-EXCITE™ 9

The GEL-EXCITE™ 9 shoe is a comfortable trainer for the casual fitness runner.

With an engineered jacquard mesh upper, this material increases airflow while creating a softer feel against your foot.

A combination of AMPLIFOAM™ cushioning and GEL® technology are placed in the midsole. These features provide better durability with a more forgiving landing at footstrike.

FEATURES

Engineered jacquard mesh upper creates a softer feel against the foot while improving breathability
AMPLIFOAM™ cushioning improves durability and creates a more flexible feel at footstrike
Rearfoot GEL® technology improves impact absorption and creates a softer feeling at footstrike
OrthoLite™ sockliner provides soft step-in comfort
GUIDANCE LINE™ technology provides a more consistent stride

GEL-EXCITE™ 9

**MODERNIZED HERO
TO HALO**

**IMPROVED
UPPER VALUE**

**MIDSOLE
PAINT REFRESH**

GEL-EXCITE™ 9

The GEL-EXCITE™ 9 shoe is a comfortable trainer for the casual fitness runner.

With an engineered jacquard mesh upper, this material increases airflow while creating a softer feel against your foot.

A combination of AMPLIFOAM™ cushioning and GEL® technology are placed in the midsole. These features provide better durability with a more forgiving landing at footstrike.

FEATURES

Engineered jacquard mesh upper creates a softer feel against the foot while improving breathability
AMPLIFOAM™ cushioning improves durability and creates a more flexible feel at footstrike
Rearfoot GEL® technology improves impact absorption and creates a softer feeling at footstrike
OrthoLite™ sockliner provides soft step-in comfort
GUIDANCE LINE™ technology provides a more consistent stride

GEL-CONTEND™ 7

The GEL-CONTEND™ 7 running shoe provides excellent cushioning for runners seeking a combination of durability and support.

Designed with an engineered mesh upper, this application stretches with the foot's natural motion and creates an excellent fit. The synthetic stitching on the overlays helps create a more supportive foothold. By following a more sustainable design approach, this shoe also uses fewer resources to colour the sockliner.

The reliable cushioning stems from rearfoot GEL® technology, a durable AMPLIFOAM™ midsole, and an OrthoLite™ sockliner that are each designed to improve comfort and provide excellent shock absorption. Following the natural progression of the foot, GUIDANCE LINE™ technology helps generate a more natural and consistent stride. Additionally, the flex grooves in the outsole increase the shoe's flexibility during your step—creating a more natural feel from footstrike to toe-off.

FEATURES

GEL® technology cushioning provides excellent shock absorption
 Engineered mesh upper improves airflow
 OrthoLite™ sockliner offers excellent step-in comfort
 Flex grooves in the outsole improve flexibility
 Synthetic stitching on the overlays improves support
 AMPLIFOAM™ midsole provides durable cushioning
 GUIDANCE LINE™ technology provides a more consistent stride
 Extra Wide fit

JOLT™ 3

The new JOLT™ 3 shoe is designed to help you run or walk more comfortably. This shoe combines an injection EVA midsole with a solid rubber outsole for improved durability. Drawing inspiration from our longstanding GT series, this trainer offers classic styling and a great fit.

To make this edition even softer and move with your foot better on the run, we have engineered more flex grooves in the outsole. The upper is reinforced with stitch down overlays. Lastly, a more accommodating forefoot fit and a soft OrthoLite™ sockliner will help keep you stay comfortable throughout the day.

FEATURES

Flexible mesh upper
Synthetic stitching on the overlays
OrthoLite™ sockliner provides soft step-in comfort

TRAIL

SS22 | ASICS CANADA

FOOTWEAR

FUJI SPEED™

Comfortable, durable, and fast, the FUJI SPEED™ shoe is functional for longer distances on the trails.

The upper is designed with a lightweight Nexkin material to increase durability against abrasions from rocks and roots. Meanwhile, the speed laces reduce pressure against the top of the foot while creating a supportive fit.

Inspired by our road racing shoes, this shoe features a Pebax® propulsion plate and GUIDESOLE™ technology. These technologies help create an easy propulsive ascent and smooth descent on technical trails.

FEATURES

Nexkin upper reduces the shoe's weight while increasing durability against abrasions from rocks and roots

An asymmetrical lacing system helps reduce pressure across the top of the foot

Lace garage helps keep the laces from coming untied

GUIDESOLE™ technology helps you conserve energy by reducing ankle flexion

FLYTEFOAM™ cushioning provides lightweight impact absorption

Pebax® propulsion plate helps redirect your energy forward while creating a faster feel underfoot

ASICSGRIP™ outsole rubber provides advanced grip on varying terrain

TRABUCO MAX™

Energy savings are an important component for trail runners traversing across long distances, which is why we applied GUIDESOLE™ technology to the TRABUCO MAX™ trail shoe.

GUIDESOLE™ technology is a sole construction that consists of a responsive toe spring that's scientifically proven to save energy over the long run. Thanks to the reduced load placed on the limbs from foot-strike to toe-off, this technology gives trail runners more potential to run further

Traction is a necessary component for running off-road, which is why we have incorporated ASICSGRIP™ technology in the outsole. This rubber compound is functional for providing traction, especially amongst wet and slippery conditions.

Adding 28mm of FLYTEFOAM™ technology under the heel and 23mm under the forefoot, this shoe provides excellent cushioning. The combination of a smooth forward rolling motion, improved cushioning, and better traction makes the TRABUCO MAX™ shoe a great training partner for a variety of trail running workouts.

FEATURES

GUIDESOLE™ technology helps conserve energy
FLYTEFOAM™ technology cushioning
ASICSGRIP™ outsole improves durability
ORTHOLITE™ insole provides soft step-in comfort
Breathable mesh upper
Gaiter system
3D print upper improves support
Toggled speed lacing system

GEL-TRABUCO™ 10 G-TX

The GEL-TRABUCO™ 10 G-TX trail shoe is designed to keep your feet dry when you're running or hiking in wet conditions.

With GORE-TEX™ paneling on the upper, this shoe helps prevent rain and mud from entering the shoe's interior.

Its rock protection plate features a flexible construction that shields your feet from sharp rocks and rugged terrain.

The outsole is formed with ASICSGRIP™ technology and a technical tread pattern. It's functional for helping you experience better traction on varying off-road surfaces.

FEATURES

GORE-TEX™ membrane helps prevent rain and mud from entering the shoe's interior

Lace garage helps keep the laces from coming untied

Rearfoot GEL® technology improves impact absorption and creates a softer feeling at footstrike

DUOMAX® support system is positioned on the inside of the midsole to help prevent overpronation

Rock protection plate features a flexible design that helps shield your foot from rocks and rugged terrain

ASICSGRIP™ outsole rubber provides advanced grip on varying terrain

Full-ground contact design creates a smoother and more efficient ride

GEL-TRABUCO™ 10

The GEL-TRABUCO™ 10 shoe is a versatile trail design that offers advanced durability for trail runs and long hikes.

Functional for keeping out trail debris, these shoes feature a closed engineered mesh and 3D print details on the upper.

Its rock protection plate features a flexible construction that shields your feet from sharp rocks and rugged terrain.

The outsole is formed with ASICSGRIP™ technology and a technical tread pattern. It's functional for helping you experience better traction on varying off-road surfaces.

FEATURES

3D print details help keep the trail's elements from entering the shoe's interior

Lace garage helps keep the laces from coming untied

Rearfoot GEL® technology improves impact absorption and creates a softer feeling at footstrike

DUOMAX® support system is positioned on the inside of the midsole to help prevent overpronation

Rock protection plate features a flexible design that helps shield your foot from rocks and rugged terrain

FUJI LITE™ 2

The FUJILITE™ 2 shoe is inspired by the Hinoki Cypress tree that's native to Mount Fuji. It keeps you focused on the path ahead and guides you towards a more positive mindset.

Following a sustainable design approach, the reshaped FLYTEFOAM™ midsole is formed with recycled materials. This foam creates lightweight shock absorption, propelling your stride forward as you move through the trails.

Lastly, the shoe's outsole is designed to increase traction on muddy or loamy surfaces.

FEATURES

Engineered mesh upper improves breathability

Lace garage tongue feature allows the wearer to tuck in their laces, so they don't come untied or snag anything when they're running

FLYTEFOAM™ cushioning consists of sustainable materials that also increase the durability of the foam

ASICSGRIP™ outsole helps runners experience better traction and durability on wet and dry trail surfaces

The shoe's upper is made with recycled materials to reduce waste and carbon emissions

GEL-SONOMA™ 6 G-TX

The GEL-SONOMA™ 6 G-TX running shoe is designed for the great outdoors. Taking inspiration from the ASICS trail running family, this shoe is a versatile offering that's functional for trail runs, light hiking, and other outdoor adventures. We also used fewer resources to colour the sockliner for a more sustainable design approach. This updated version of our trail shoe is complemented with a GORE-TEX™ upper to help keep feet dry in wet conditions.

The focus this season was to improve the fit of the upper, so we implemented a new last design that provides a more secure midfoot and heel fit, while the wider toe box allows the toes to spread out. The synthetic stitching on the overlays is designed to improve durability while also helping feet stay secure and reduce slipping.

Underfoot comfort stems from a full-length AMPLIFOAM™ midsole and GEL® technology cushioning unit that's placed where runners need the most impact absorption. To increase the softness with every step, we've included an ORTHOLITE™ sockliner for excellent comfort. Additionally, the multi-directional grip outsole improves traction on a variety of surfaces.

All of these comfort components are complemented by durable properties, such as the solid rubber outsole—making this shoe a versatile choice for the trails.

FEATURES

- GORE-TEX™ upper helps repel water
- AMPLIFOAM™ technology cushioning
- GEL® technology cushioning provides excellent shock absorption
- Solid rubber outsole
- ORTHOLITE™ sockliner provides soft step-in comfort
- Sustainable sockliner dye

GEL-EXCITE™ TRAIL

The GEL-EXCITE™ TRAIL shoe allows you to comfortably handle challenging terrain. It allows your mind to enjoy the calming experience of being outdoors.

Supportive overlays keep your feet more stable when you're traversing across rocky paths and loose dirt. The shoe also has a durable construction that's able to handle the trail's unexpected conditions.

Featuring a rugged outsole pattern, the GEL-EXCITE™ TRAIL shoe provides better traction on off-road surfaces.

FEATURES

Mesh upper improves airflow and help keep feet cool
Overlays are strategically positioned in the toe, midfoot, and the heel to keep feet protected from the trail's unexpected conditions

AMPLIFOAM™ midsole technology is a durable cushioning foam that helps create a softer feel at footstrike

GEL® technology cushioning provides excellent shock absorption

Durable outsole tread provides excellent grip on off-road surfaces

GEL-VENTURE® 8

The GEL-VENTURE® 8 running shoe is designed for the great outdoors. This versatile shoe is excellent for trail runs, light hiking or exploring a new city. This model has been updated with a more accommodating forefoot fit, while reducing the amount of overlays around the forefoot without sacrificing durability.

Lastly, the outsole is more durable with a traction pattern that's been improved with re-engineered lugs under the heel. All of these updates make the new GEL-VENTURE® 8 shoe a recommended companion for your next adventure.

FEATURES

GEL® technology cushioning provides excellent shock absorption
Re-engineered outsole lugs for better off-road traction

NOVABLAST™ 2

The NOVABLAST™ 2 GS (Grade School) shoe is the kid's version of the iconic NOVABLAST™ series. It features an energetic bounce underfoot that's inspired by the feeling of jumping on a trampoline. Created using a kid's-specific last, these shoes offer a more accommodating fit for growing feet. With a solid rubber outsole and medial wrap-up, these shoes improve durability. Meanwhile, motivational details, like the phrase "Better your Best," appears on the outsole.

The NOVABLAST™ 2 PS (Pre-School) shoe is the kid's version of the iconic NOVABLAST™ series. It features an energetic bounce underfoot that's inspired by the feeling of jumping on a trampoline. Created using a kid's-specific last, these shoes offer a more accommodating fit for growing feet. With a solid rubber outsole and medial wrap-up, these shoes improve durability. Meanwhile, motivational details, like the phrase "Better your Best," appears on the outsole. We've also integrated our CUB MATCH™ sockliner to help kids recognize the left shoe from the right shoe.

GT-1000® 11

The GT-1000® 11 G.S. (Grade School) shoe is designed to keep energized feet in motion. A LITETRUSST™ support system is placed in the midsole to increase stability as kids roll through their stride. Meanwhile, E.V.A. cushioning and GEL® technology creates good shock absorption with a softer feel underfoot.

Designed with a kid's-specific last, these shoes offer a more accommodating fit for growing feet. Lastly, this style includes a solid rubber outsole, a medial wrap-up, and toe rubber stitching to improve durability.

FEATURES

Breathable mesh upper

Rearfoot GEL® technology improves impact absorption and creates a softer feeling at footstrike
E.V.A cushioning

Kid's-specific last creates a more accommodating fit

The solid rubber outsole and medial wrap-up improve the shoe's durability

NOOSA TRI™ 13

Drawing design cues from our flagship triathlon shoe, the NOOSA TRI™ 13 GS (Grade School) style channels the same energetic colour blocking, along with a technical design.

Featuring a mesh upper to increase airflow that helps keep feet cool, this shoe's vibrant colourway is combined with a series of bold "NOOSA" graphics.

Injected with improved comfort in the midsole, thanks to the injection EVA midsole and increased flexibility in the forefoot, this shoe also incorporates a toe stitched rubber outsole compound for improved durability.

FEATURES

Breathable mesh upper
GEL® technology cushioning provides excellent shock absorption
Injection EVA midsole cushioning
Stitched toe and solid rubber outsole improve durability

GEL-EXCITE™ 9

The GEL-EXCITE™ 9 GS (Grade School) shoe is formed with energized design details. This shoe offers high-quality breathability with fewer layers on the upper to reduce irritation in the forefoot. Durable properties, like the toe rubber stitching and solid rubber outsole are designed to expand the shoe's lifespan.

The PRE EXCITE™ 9 PS (Pre-School) shoe is formed with energized design details. This shoe offers high-quality breathability with fewer layers on the upper to reduce irritation in the forefoot. Additionally, a CUB MATCH™ sockliner uses a tiger graphic to help kids recognize the left shoe from the right shoe. Durable properties, like the toe rubber stitching and solid rubber outsole, are designed to expand the shoe's lifespan.

FEATURES

GEL-EXCITE™ 9 GS

Breathable mesh upper
GEL® technology cushioning provides good shock absorption
E.V.A cushioning
Solid rubber outsole and toe rubber stitching improve durability

GEL-EXCITE™ 9 PS

Breathable mesh upper
CUB MATCH™ sockliner uses a tiger graphic to help kids recognize the left shoe from the right shoe
E.V.A cushioning
The solid rubber outsole and toe rubber stitching improve durability

CONTEND™ 7

Different animals inspire the CONTEND™ 7 PS (Pre-School) SCHOOL YARD shoe. Each shoe in the collection features a hook and loop fastening system that's accented with dog, monkey, bear, or sheep designs. Details like the toecap, toe rubber stitching, and solid rubber outsole increase durability and lengthen the shoe's lifespan. Additionally, our CUB MATCH™ sockliner is printed with a tiger caricature that helps kids identify which shoe is right and left.

Different animals inspire the CONTEND™ 7 TS (Toddler Size) SCHOOL YARD shoe. Each shoe in the collection features a hook and loop fastening system that's accented with dog, monkey, bear, or sheep designs. Details like the toecap, toe rubber stitching, and solid rubber outsole increase durability and lengthen the shoe's lifespan. Additionally, our CUB MATCH™ sockliner is printed with a tiger caricature that helps kids identify which shoe is right and left.

FEATURES

JOLT™ 3

Inspired by our GT running series, the JOLT™ 3 GS (Grade School) shoe is a multi-functional style that's engineered for everyday use. Featuring a comfortable fit in the forefoot, this shoe is complemented with stitched down overlays to improve support in the upper. Mesh underlays help deliver better airflow to keep feet cool, while the stitched toe and solid rubber outsole increases durability to last longer.

GEL-VENTURE® 8

The GEL-VENTURE® 8 GS (Grade School) shoe draws inspiration from our performance trail running offerings, like the GEL-FUJITRABUCO™ 8 style's upper and tooling. This GS offering is designed to help promote outdoor protection, featuring a layered stitch down construction and reinforced toe paneling for excellent comfort.

This shoe has also been designed with a multi-surface grip that incorporates a lugged outsole pattern for better traction on a variety of terrain.

FEATURES

GEL® technology cushioning provides excellent shock absorption
Re-engineered outsole lugs for better off-road traction

FOOTWEAR

COURT FF™ 3 NOVAK

The COURT FF™ 3 tennis shoes are designed to help you swing stronger and recover quicker between shots.

By increasing the outsole's contact area, the shoe creates a stable landing and reduces the load placed on the body. As a result, you're able to put more energy into generating a powerful swing.

For a smoother crossover step, this shoe allows you to perform quicker turns in a shorter timeframe. With good outsole grip and a TWISTRUSS™ support system, you can push off the ground with more force. This helps you quickly recover and get back to your ready position more smoothly.

FEATURES

FLYTEFOAM™ cushioning provides lightweight impact absorption

AHAR® outsole improves durability

MONO-SOCK™ construction improves support

TRUSSTIC™ technology improves stability

Forefoot GEL® technology improves impact absorption and creates a softer feeling at footstrike

Removable OrthoLite™ sockliner

GEL-RESOLUTION™ 8

The GEL-RESOLUTION™ 8 tennis shoe promotes a responsive stride with a close-to-the-court feel.

The FLEXION FIT™ upper provides form-fitting support with the integration of DYNAWALL™ technology, which offers added midfoot stability during lateral movements and coast-to-coast coverage. Implementing a torque control feature in the heel counter, this shoe is also designed to help maintain a locked in feel during quick transitions.

Featuring GEL® technology cushioning in the heel and midfoot, this shoe helps reduce the impact of shock from abrupt stop and go movements on court. Additionally, the model also incorporates an AHAR® compound in the outsole that works in conjunction with the

PGUARD™ toe protector to increase traction on court and reduce the overall level of wear. Creating an accelerated response with a natural close-to-the-ground feel, the GEL-RESOLUTION™ 8 tennis shoe helps you approach your matches with confidence.

FEATURES

PGUARD™ toe protector improves durability
DYNAWRAP™ technology improves stability
FLEXION FIT™ upper improves flexibility
AHAR® outsole improves durability
Rearfoot and forefoot GEL® technology cushioning provides excellent shock absorption
DYNAWALL™ technology improves stability
Removable sockliner

SOLUTION SPEED™ FF 2

The fastest model in the ASICS tennis range, our SOLUTION SPEED™ FF 2 Clay shoe is all about helping expand your territory on the court. Combining better stability and a more flexible fit, this shoe is a recommended choice for athletes that are looking for quicker accelerations to be ahead of the ball.

The SOLUTION SPEED™ FF 2 Clay model features a PU (polyurethane) application on the upper that helps generate better support, flexibility, and an improved fit. Implementing DYNAPWRAP™ technology into the eyestay, this application helps provide more stability in the forefoot during side-to-side movements. Additionally, the sockliner is produced with a solution dyeing process that reduces water usage and carbon emissions.

TWISTRUSS™ technology in the midsole assists players who are regularly moving from the baseline to the net by improving their cutting motions and quick transitions. Providing a faster acceleration period between stops to full-sprints; this shoe is excellent for athletes who want to get to the ball swiftly and have more time to plan their shot with plenty of pace.

Recognizing that the first step is usually the most important step during a point, we've designed this shoe to provide better traction in the heel, forefoot and the toe section on clay court surfaces.

Combining a responsive cushioning system with a more supportive upper and improved flexibility, the SOLUTION SPEED™ FF 2 Clay shoe is an excellent choice for tennis athletes looking to expand their territory.

MEN'S STACK HEIGHT: 19.5mm-9mm // DROP: 10.5mm // WEIGHT: 11.8oz/335g*

GEL-CHALLENGER® 13

The GEL-CHALLENGER® 13 tennis shoe creates the stability you need when you're covering the baseline, so you can keep your mind focused on controlling the point.

The shoe's supportive upper keeps your feet locked-in on the shoe's platform. It creates a reinforced feel during volleys or when you're dropping back to track down deep lob shots.

WINGWALL™ technology is placed in the sidewall to improve stability during side-to-side movements. This feature offers good support, so you can step into your shot and stroke the ball with more pace.

FEATURES

PGUARD™ toe protector improves durability
OrthoLite™ sockliner provides soft step-in comfort
WINGWALL™ technology improves stability
Rearfoot and forefoot GEL® technology cushioning provides excellent shock absorption
AHARPLUS™ outsole improves durability

GEL-GAME™ 8

Both durable and comfortable, the GEL-GAME™ 8 tennis shoe is versatile for the recreational athlete who's playing several times per week. Preserving its excellent support properties, our focus this season was to improve the shoe's ventilation and flexibility.

Featuring an open mesh design on the upper to improve airflow and keep feet cool, this shoe is complemented with synthetic leather overlays and a PU (polyurethane) film that offers improved stability when making abrupt transitions.

The TRUSSTIC™ technology in the midsole generates better stability on the court. At the same time, the new tooling combines an EVA midsole foam with GEL® technology cushioning in the forefoot to increase shock absorption.

Additionally, the improved outsole offers better flexibility and a more durable design. The GEL-GAME™ 8 tennis shoe is an excellent choice for beginner to mid-level players seeking a cushioned and stable tennis shoe.

FEATURES

Open mesh design improves breathability
TRUSSTIC™ technology improves stability
GEL® technology cushioning provides excellent shock absorption
Sustainable design approach

GEL-DEDICATE™ 7

The GEL-DEDICATE™ 7 tennis shoe offers good stability and a flexible feel to keep your mind centered during the match.

This shoe's upper is constructed with synthetic leather materials to improve support. They keep your feet locked-in when you're switching directions and chasing down challenging shots.

A TRUSSTIC™ support unit and wrap-up outsole improve stability while allowing your feet to move freely. This lets you change directions more confidently, particularly if you're moving side-to-side.

FEATURES

Durable synthetic leather toe overlays

TRUSSTIC™ technology and wrap-up outsole improve stability

GEL® technology cushioning provides excellent shock absorption

GEL-RESOLUTION™ 8 GS

The GEL-RESOLUTION™ 8 GS kid's tennis shoe promotes a responsive stride with a close-to-the-court feel. The FLEXION FIT® upper provides form-fitting support with the integration of DYNAWALL™ technology, which offers added midfoot stability during the lateral movements and coast-to-coast coverage. Implementing a torque control feature in the heel counter, this shoe is also designed to help younger athletes maintain a locked in feel during abrupt transitions. Featuring our GEL® technology based cushioning in the heel, this shoe helps reduce the impact of shock from abrupt stop and go movements on court. Creating an accelerated response with a natural close-to-the-ground feel, the GEL-RESOLUTION™ 8 GS kid's tennis shoe helps younger athletes approach their matches on court with confidence.

FEATURES

FLEXION FIT™ upper improves flexibility
GEL® technology cushioning provides excellent shock absorption

VOLLEYBALL

SS22 | ASICS CANADA

FOOTWEAR

SKY ELITE™ FF MT 2

The SKY ELITE™ FF MT 2 volleyball shoe helps you experience powerful jumps, allowing your game and mind to reach new heights.

Specifically created with the attacker in mind, these shoes help reduce energy loss when setting up for the spike. The curved heel design allows you to smoothly cut towards the net by creating an easier forward transition.

The midsole's TWISTRUSS™ technology increases jumping force by working with a wider lateral forefoot gauge and the DYNAPWRAP™ lacing system. Together, these technologies improve stability when braking and decrease power loss during jumps.

A thicker midsole is layered with FLYTEFOAM™ Propel cushioning. This helps you experience more underfoot comfort and higher jumps.

FEATURES

GEL® technology cushioning provides excellent shock absorption

DYNAPWRAP™ technology improves stability during side-to-side movements

FLYTEFOAM™ Propel technology cushioning increases impact absorption and responsiveness

TWISTRUSS™ technology helps players transition horizontal power to vertical power without losing energy

Curved heel shape allows athletes to cut-in more smoothly and set themselves up for a more powerful jump.

Wider flexion grooves in the outsole offer better flexibility

Mid-top design improves stability

SS22 | ASICS CANADA

FOOTWEAR

BLAST FF™ 2

The BLAST FF™ 2 model is designed for indoor court sports. It's an excellent choice for power players looking for advanced support and flexibility. They want their shoes to protect and support them during abrupt movements.

This shoe improves upon its predecessor by helping maintain power during pivot and side-to-side movements. It also has improved flexibility that's complemented with a responsive underfoot feel.

Thanks to the no-sew mesh application that promotes a customized feel by adapting to the foot's natural motion, this style also features a more supportive fit. The TURNTRUSS™ component helps stabilize the foot during side-to-side and turn back motions by wrapping the rear lateral portion of the midsole while allowing smooth transitions in between each stride.

Equipped with DYNAPWRAP™ technology, these supportive panels are designed to wrap the foot with a secure hold during sudden turns or side-to-side movements.

Energized with FLYTEFOAM™ Propel technology in the midsole, this shoe allows a better bounceback to deliver powerful transfers from one foot to the other on the court.

FEATURES

TRUSSTIC™ technology improves stability
DYNAPWRAP™ technology improves stability
FLYTEFOAM™ Propel technology cushioning
increases impact absorption and responsiveness

COURT CONTROL™ FF 2

The COURT CONTROL™ FF 2 shoe is an excellent choice for badminton players engaging in long rallies with a high jump and smash style of play. Designed to improve lateral support, this shoe also increases flexibility to accommodate quick multi-directional movements.

An improved fit around the ankle helps players quickly shift directions, while the loop system in the eyelets increases midfoot support. Functional during multi-directional movements, the lateral wrap-up outsole is paired with flex grooves in the outsole to offer excellent stability and flexibility on the court.

Thanks to the upper PU (polyurethane) construction, this application offers a better fit with more support and flexibility. Additionally, the PGUARD™ technology in the medial forefoot increases durability and keeps the shoe from creating too much friction with the court.

Paired with GEL® technology cushioning and a FLYTEFOAM™ midsole material to increase shock absorption, the COURT CONTROL™ FF 2 shoe is a recommended model for competitive badminton players with a baseline to net playing style.

FEATURES

PU (Polyurethane) and mesh upper
Lateral wrap-up construction improves stability
Eyelet loops increase midfoot support
FLYTEFOAM™ technology provides lightweight cushioning
FLYTEFOAM™ Propel technology cushioning increases impact absorption and responsiveness
GEL® technology cushioning provides excellent shock absorption

GEL-BLADE™ 8

The GEL-BLADE™ 8 shoe creates good support for squash and badminton players engaging in multi-directional movements. Practical for diagonal court coverage, this shoe helps you push your body and mind to new boundaries.

The upper has been reconstructed to promote a more supportive foothold. It keeps your foot locked-in when making quick transitions.

By raising the heel collar height, this shoe offers more stability while allowing your foot to move more freely.

We redesigned the outsole with our X GUIDANCE™ technology for improved diagonal court coverage. This function increases flexibility and allows you to move more easily on the court.

FEATURES

No-sew overlays improve support and flexibility

Raised heel collar height improves stability and keeps the foot from slipping out of the shoe

TPU TRUSSTIC™ technology improves stability

GEL® technology cushioning provides excellent shock absorption

X GUIDANCE™ technology improves flexibility and agility during multi-directional movements

GEL-TACTIC™

The GEL-TACTIC™ model is a recommended choice for court athletes seeking comfort and stability. It's made to keep your mind and body moving, so you can be ready to make big plays.

The rearfoot GEL® technology creates comfortable underfoot cushioning. Designed to soften abrupt landings, this material also promotes smoother transitions.

TRUSSTIC™ technology increases your midfoot stability, allowing you to attack the other team's defense throughout the match.

FEATURES

GEL® technology cushioning provides excellent shock absorption

GEL-RENMA™

The GEL-RENMA™ is designed for indoor court players looking to take their game to the next level.

When you're performing multi-directional movements, you need a shoe that will help increase your stability and flexibility. The midsole's TRUSSTIC™ technology improves support while reducing excessive twisting. Meanwhile, the wrap-up outsole is teamed with a wider gage to create smoother and more balanced movements.

Flex grooves in the outsole are strategically positioned to accommodate multi-directional movements. They help increase your flexibility so you can move more freely.

FEATURES

Synthetic leather overlays help provide good durability
TRUSSTIC™ technology improves stability
Wrap-up outsole and wider gage help create smoother and more balanced movements
Flex grooves in the outsole improve flexibility

GEL-ROCKET™ 10

A multi-purpose indoor court shoe, the GEL-ROCKET™ 10 offering continues to deliver excellent cushioning for a range of court athletes. This season, our updates focus on improving the shoe's stability while offering a more flexible fit.

This shoe is designed with a flexible upper construction that can help feet bend more naturally and assist players in moving more freely. Additionally, this shoe also features synthetic leather overlays that improve support in the forefoot and help athletes make confident cuts.

Designed with a TRUSSTIC™ application in the midsole, this application improves stability during quick transitions. Creating excellent comfort, the GEL® technology cushioning unit in the heel is functional for providing better shock absorption.

A wrap-up outsole and outrigger is a functional support component during side-to-side movements. In contrast, the heel wrap-up expands the contact area during the landing phase of your stride to help generate a smoother landing. Lastly, the flexible grooves in the outsole are complemented with a side grip design that improves flexibility on the court.

FEATURES

Breathable mesh upper
TRUSSTIC™ technology improves stability
Heel wrap-up generates smoother landings
Flex grooves in the outsole improve flexibility

UPCOURT™ 4

Designed for indoor court athletes who are newer to the game, the UPCOURT™ 4 shoe delivers a combination of lightweight flexibility, support and durability.

This shoe is constructed with synthetic leather overlays that promote better support and stability during abrupt transitions and braking, while the breathable mesh paneling delivers plenty of airflow to keep feet comfortable during matches.

Lastly, the UPCOURT™ 4 shoe is designed to improve traction on court, featuring a rubber gum sole application to emphasize grip on indoor court surfaces.

WRESTLING

SS22 | ASICS CANADA

FOOTWEAR

AGGRESSOR™ 4

Building upon its flagship combination of durability and advanced grip, the AGGRESSOR™ 4 Tokyo features a limited model colour scheme that's representative of Japan's symbolism of the colour red and its association with the sunrise.

Featuring a primarily suede upper construction that delivers excellent support throughout the match, this shoe is also complemented with a mesh tongue for better breathability to keep feet cool. Additionally, the shoelace garage allows the laces to stay concealed and keeping from coming untied.

Engineered with our RUBBER DUOSOLE™ technology in the outsole, this component lightens the overall weight of the shoe while keeping promoting better traction on mat surfaces.

FEATURES

RUBBER DUOSOLE™ technology in the outsole for lighter

Weight and better grip on mat surfaces

Shoelace garage that allows wrestlers to keep their laces concealed

MEN'S

MATBLAZER™

The MATBLAZER™ shoe helps you keep your mind in focus and ready for the match. It's the first wrestling shoe made exclusively for women, and it features a lightweight yet supportive fit.

Its mesh construction creates strategic airflow to keep your feet comfortable. Meanwhile, the women's-specific last provides better midfoot support and comfort. The circular outsole pattern features a flexible design that delivers good grip and support throughout the match.

FEATURES

Semi-transparent mesh underlays improve breathability
Circular outsole pattern improves grip on mat surfaces

JB ELITE™ V

Based on Jordan Burroughs' specifications, the JB Elite™ V shoe offers good flexibility, support, and ventilation. It's designed to help you push your mind and body potential on the mat.

This shoe features a lightweight and breathable jacquard mesh that helps your feet keep cool. It also has a lightweight film layer to increase support.

This mesh pattern on the upper improves flexibility while helping your feet move more freely. It gives you the confidence to quickly counter your opponent's move or take the open shot.

FEATURES

Jacquard mesh upper improves flexibility and support

Flexible outsole design that moves more freely with the foot

SNAPDOWN™ 3

The unisex SNAPDOWN™ 2 wrestling shoe is a competitive mid-level model from ASICS, made for those searching for quality and comfort. The full-length outsole is designed with wrestling-specific Serradial Traction Pods, which create improved flexibility and grip. The upper is made from single-layer mesh and synthetic suede, enhancing ventilation and flexibility.

This shoe might be technologically advanced, but it doesn't overlook the fundamentals. It boasts a great fit and complies with wrestling lacing rules.

Lightweight and versatile, the SNAPDOWN™ 2 shoe is easy to wear and as an extra bonus, it looks so good you can take on any opponent in comfort and confidence.

FEATURES

Kimono inspired tongue design to promote a better foothold

Shoelace garage to keep laces concealed while wrestling

Mesh underlays to deliver excellent airflow

MATFLEX™ 6

Built to provide you with confidence on the mat, the MATFLEX™ 6 wrestling shoe is a must-have for wrestling professionals from all backgrounds. When you're striving to make it to the end of the match and hopefully walk away with the win, you'll need to know that your wrestling shoes will help you go the distance. The great news is that the MATFLEX™ 6 has been equipped with a California lasting for superior durability. The mesh insole also works to keep you comfortable as you push yourself (and your opponent). It allows fresh air to circulate and refresh the skin, keeping uncomfortable dampness at bay. Furthermore, a E.V.A sockliner ensconces the foot in unrivaled support, giving you that second wind that you need to gain the upper hand. Comfort, stability and durability. The MATFLEX™ 6 wrestling shoe has it all.

GEL-QUANTUM 180™

The GEL-QUANTUM 180™ sneaker evolves the shoe's lineage with technologies and styling cues from the ASICS archive. It's designed to keep you comfortable as you push your mind and body to new boundaries.

This shoe's performance inspiration is offset with synthetic leather overlays and mesh underlays to form a modern lifestyle look.

Tuned with 180-degrees of GEL® technology, this shoe creates a softer cushioning experience in every step.

FEATURES

Mesh underlays offer good breathability

Synthetic leather overlays

GEL® technology improves impact absorption and creates a softer feeling at footstrike

Heel loop pull tabs make the shoe easier to take on and off

JAPAN S™ PF

The JAPAN S™ PF shoes give your feet and your mind a lift for every move. They're based on one of our throwback offerings from 1981 but rework the iconic court details with lifestyle materials.

Updating the sole with a platform tooling, this shoe is complemented with good comfort and improved cushioning. Mirroring a heritage basketball sneaker's aesthetic, this style is also reimagined with a hologram logo that adds visual depth to the design.

FEATURES

Platform midsole

JAPAN S™ shoe design language

Synthetic leather upper

JAPAN S™

This pack draws inspiration from Japan's bamboo forests.

The upper harmonizes the shoe's heritage shape with bamboo yarn fibers and cork accents. Meanwhile, the suede paneling is complemented with recycled polyester underlays for a more sustainable design approach.

Featuring its original tooling, this shoe also features a gum-coloured outsole for a natural finish.

FEATURES

Just like the 1986 offering, this version features its original shape and external heel clip

Suede overlays

Designed with more than 60% recycled polyester for the mesh underlays

Original tooling and GEL® technology creates a softer feel underfoot

UPPER

ANTI-GRAVEL TONGUE

Reinforced tongue construction to prevent debris from entering the shoe.

BUNION WINDOW

Soft stretchy area on the medial forefoot reducing the risk of irritation and discomfort.

ENGINEERED MESH

A technical mesh material that stretches in multiple directions, creating a glove, "snug like" fit that provides a unique balance of comfort and fit.

INNER LOCK LACING

Asymmetrical internal straps to secure foot to platform of shoe, improving fit and stability.

INTERNAL UPPER SUPPORT SYSTEM

Internal underlay in the upper which allows targeted support in key areas.

MEDIAL SUPPORT PANEL

Providing additional support on the medial side of the upper keeping the foot secure on platform.

REFLECTIVITY

Visibility for enhanced nighttime and early morning reflective brightness.

SEAMLESS CONSTRUCTION

Seamless construction reduce the potential for irritation and friction caused by traditional stitches and overlays.

CUSHIONING

3D SPACE CONSTRUCTION™

Reduces weight and allows the runner to deform the midsole more (more cushioned feeling) without sacrificing durability. Gender Specific to accommodate gait differences.

AMPLIFOAM™ MIDSOLE

ASICS proprietary midsole material tuned for comfortable cushioning.

FLYTEFOAM™ BLAST TECHNOLOGY

A lightweight responsive foam formulation delivering a bouncy and energetic ride.

FLYTEFOAM™ TECHNOLOGY

One of ASICS's lightest weight midsole foam that provides continuous cushioning.

FLYTEFOAM™ PROPEL TECHNOLOGY

A responsive foam formulation delivering excellent bounce back characteristics.

GEL® TECHNOLOGY

Shock attenuating material placed in midsole of the shoe for excellent cushioning and shock absorption.

GENDER-SPECIFIC CUSHIONING

Softer density used in the midsole material of women's models to cater for the lighter body weight generally seen in females.

HEEL GRADIENT 10MM

ASICS' Football boot technology that shifts body mass forward - helping to reduce strain on lower limbs.

PLUS 3™ TECHNOLOGY

3mm of additional heel stack height on women's models to address the differences in male and female biomechanics.

REMOVABLE SOCKLINER

A sockliner which can be removed.

ORTHOLITE™ LASTING

This lasting material features plush underfoot comfort while providing excellent moisture management and a high level of breathability(OrthoLite is a registered trademark of ATP Manufacturing LLC).

TWIST GEL®

Strategically positioned GEL® Brand Technology unit placed under the forefoot for cushioning and also to assist with propulsion.

STABILITY

DUOMAX® TECHNOLOGY

A dual-density midsole system positioned to enhance support and stability.

DYNAMIC DUOMAX™ TECHNOLOGY

This evolution of DUOMAX® system enhances stability and support, with reduced weight and increased platform comfort.

DYNAMIC FOREFOOT CRADLE

Reinforced EVA component contoured to provide medial stability to the forefoot.

EXTERNAL HEEL CLUTCH

An external heel counter delivering better overall fit and targeted support.

GENDER-SPECIFIC TRUSSTIC™ TECHNOLOGY

Specifically designed TRUSSTIC technology to cater to the differences in male and female biomechanics.

GUIDANCE LINE™ TECHNOLOGY

Flex grooves that decouples the midsole for enhanced running efficiency and stride repeatability.

GUIDANCE TRUSSTIC™ TECHNOLOGY

GUIDANCE TRUSSTIC™ technology integrates GUIDANCE LINE™ construction for enhanced running efficiency while providing midfoot structural integrity..

IMPACT GUIDANCE SYSTEM® (I.G.S)

ASICS design philosophy to enhance the foot's natural function to improve running efficiency.

LATERAL FULL GROUND CONTACT

Using full ground outsole contact geometry for a smoother, more efficient ride.

TRUSSTIC™ TECHNOLOGY

A molded component under the mid-foot area that provides stability and, in combination with the contoured midsole, helps to control torsion.

OUTSOLE

AHAR® TECHNOLOGY

ASICS High Abrasion Resistant rubber, is placed in critical areas of the outsole for exceptional durability.

AHARPLUS™ TECHNOLOGY

AHARPLUS™ provides the best durability within the AHAR family, 3x more durable than standard rubber.

DUOSOLE® TECHNOLOGY

Outsole construction offering lightweight and flexible traction durability.

WET GRIP™ RUBBER

An outsole material designed to enhance traction, especially on wet surfaces.

EFFICIENCY / SPEED

GUIDESOLE™ TECHNOLOGY

The curved sole design of our GUIDESOLE™ technology reduces ankle flexion and provides a shock-absorbent landing zone to reduce loads on the foot.

PROPULSION TRUSSTIC™ TECHNOLOGY

Propulsion plate built into the forefoot midsole to enable a more dynamic toe-off.

TRAIL

ASICSGRIP™

ASICS proprietary outsole rubber provides high grip on various terrain, without compromising durability.

LACE GARAGE

Lace pocket enabling laces to be tucked in and unexposed.

ROCK PROTECTION PLATE

Flexible forefoot plate that provides protection against stone bruising and high impact on the trail.

WATER RESISTANCE

A surface coating that helps the upper resist water absorption(not waterproof).

TENNIS/MULTI-SPORT

DYNAWALL™ TECHNOLOGY

Reinforced wall providing increased stability during high intensity lateral movements.

DYNAWRAP™

Component in the lacing system improves stability during side-to-side motions.

PGUARD™ TECHNOLOGY

Reinforced compound around the toebox providing increased durability and protection.

TWISTRUSS™ TECHNOLOGY

Improves arch support and torsion stability with dual hardness system softer on lateral side.
