

SPRING 2022 COLLECTION

Last Updated 08/16/21 / All Prices Are Subject To Change
www.NAOTCANADA.com | [@NaotFootwear](https://www.instagram.com/NaotFootwear)

WHY NAOT?

1. HALLUX SUPPORT

Enables natural hold of the big toe, prevents the foot from slipping forward and improves the foot's hold on the shoe.

2. ELEVATED FOOTBED CENTER

The elevated center of the insole releases pressure in the joints of the central part of the foot.

3. ARCH SUPPORT

Enables the weight of the body to be correctly distributed and reduces pressure generated by the spinal column and joints.

4. DEEP HEEL INDENTATION

Helps the body's balance and maintains the natural shape of the pad of the heel that protects the heel bone.

5. FLEXIBILITY, DURABILITY & SHOCK ABSORPTION

The comfort footbed is made of a unique, high-quality blend of cork and latex, granting it flexibility, shock absorbing qualities and long-term durability.

6. LATEX SPONGE LAYER

A layer of padding that provides caressing and softness.

Naot is an international success story. When the members of Kibbutz Naot Mordechai founded the shoe factory in 1942 as a one room workshop, no one imagined that in fifty years' time their shoes would be worn all over the world. The small shoe factory that made simple work shoes and sandals has become an international business and is now Israel's leading manufacturer and exporter of shoes.

Each Naot shoe is handmade with the finest and highest quality raw materials combined with superior standards of advanced design. Our footwear comes in a magnificent array of eye-catching styles & colours to satisfy every taste. Come in close so we can whisper the secret behind the unparalleled comfort of Naot Footwear. **THE FOOTBEDS!!!** Our uniquely engineered insoles are a blend of natural cork & latex that are designed to replicate the shape of the foot, just like the footprint we leave when walking in the sand.

We invite you to flip the page and delve into our extensive collection of comfortable and fashionable footwear. Your feet work too hard - allow them to soak for a while in the soothing comfort of your favorite pair of Naots.

TAKE A TOUR
OF THE NAOT FACTORY!

www.NAOTCANADA.com | @NaotFootwear

WHY NAOT?

1. HALLUX SUPPORT

Enables natural hold of the big toe, prevents the foot from slipping forward and improves the foot's hold on the shoe.

2. ELEVATED FOOTBED CENTER

The elevated center of the insole releases pressure in the joints of the central part of the foot.

3. ARCH SUPPORT

Enables the weight of the body to be correctly distributed and reduces pressure generated by the spinal column and joints.

4. DEEP HEEL INDENTATION

Helps the body's balance and maintains the natural shape of the pad of the heel that protects the heel bone.

5. FLEXIBILITY, DURABILITY & SHOCK ABSORPTION

The comfort footbed is made of a unique, high-quality blend of cork and latex, granting it flexibility, shock absorbing qualities and long-term durability.

6. LATEX SPONGE LAYER

A layer of padding that provides caressing and softness.

Naot is an international success story. When the members of Kibbutz Naot Mordechai founded the shoe factory in 1942 as a one room workshop, no one imagined that in fifty years' time their shoes would be worn all over the world. The small shoe factory that made simple work shoes and sandals has become an international business and is now Israel's leading manufacturer and exporter of shoes.

Each Naot shoe is handmade with the finest and highest quality raw materials combined with superior standards of advanced design. Our footwear comes in a magnificent array of eye-catching styles & colours to satisfy every taste. Come in close so we can whisper the secret behind the unparalleled comfort of Naot Footwear. **THE FOOTBEDS!!!** Our uniquely engineered insoles are a blend of natural cork & latex that are designed to replicate the shape of the foot, just like the footprint we leave when walking in the sand.

We invite you to flip the page and delve into our extensive collection of comfortable and fashionable footwear. Your feet work too hard - allow them to soak for a while in the soothing comfort of your favorite pair of Naots.
